Manas Coal LLC - Renewal of coal exploration licence

Manas Coal LLC ("Manas") has notified Leed that the coal exploration licence at Kok Kiya in Kyrgyzstan has been renewed for a period to 30 November 2015. This renewal relates to the part of the original licence area that is not in dispute. Manas informs us that they have been unsuccessful to date in securing the restoration of the disputed area but they are actively pursuing the matter through the Kyrgyz courts. Manas believes that a significant and viable coal resource is located within their present licence area. However the work programme at Kok Kiya remains on hold for the time being.
